Did Not Commit Murder

Hugh Brooks, brother of Steve Brooks, a man in the employ of a woman in Oregon, a short time ago, has received a letter from the authorities of the State Asylum in which his brother has been confined saying that his statement had all proven false as he was in the hotel during the night of the trial. Brooks, in a violent temper, determined that the injury could not have been received from the blow of a hammer as he claimed. It is thought that she was struck by a passing train.

The letter states that Steve has had a fear of doing himself injury or killing another people and this pressed upon his mind at the time the body was found and he felt that he had committed the crime.

When he is sufficiently recovered he will be discharged from the asylum and his relatives will look after him.

The Man From Brodney's

(Continued.)

Three weeks later Hollingsworth Chase stepped from the deck of the yacht to the *Marie* in Marsfield. The next day he was in Paris, attended by the bewildered and almost useless Señor. An old and well-known friend, a veteran of the earlier days, met him at the Gare de Lyon in response to a telegram.

"Tell Arch you the whole story of J.A.," said Arch, but not until tomorrow." Chase said to him as they drove toward the Ritz Hotel, "I will tell you on the *Marie*. It's your yacht, the Cricket. Do you know him? Of course you do. Everybody does. The Cricket was cruising down my way and picked me up—Bowles and me. The captain took a bit out of his way to call at Ararat, where he had orders of some sort from the master, I fancy, to stop off for me."

He did not regard it as necessary to tell his correspondent friend that the Cricket had sailed from Marseilles with but one port in view—Ararat. He had left with the master, who had come with a message to him and that he was answering it in person, as it was intended that he should—a message written six weeks before his arrival in France. There were many things he could not explain to Archibald James.

"You're looking fine, Chase, old man. Did you a lot of good out there. You are as brown as that Arab in the taximeter back there. By Jove, old man, that Persian girl is rippling. You say she's his wife? She is?" Chase broke into a fit of far from original estimate of the picturesqueness.

"I say, Arch, there's something I want to know before I go to the marquis this evening. I'm due there with them girls. They live in the *Bonne Chambre*—I've got the number at night. Is one likely to find the house full of swells? I'm a bit of a savage just now, and I'm correspondingly timid."

[His friend stared at him for a moment.]

"I can save you the trouble of going to the marquis," he said. "He and the marchioness are in London at present. Left Paris a month ago."

"What? The house is closed?" in deep anxiety.

I don't think so. Their servants are all there. I don't think so. Their place adjoins the Brabazé palace. This princess is nice, you know."

"You say the Brabazé palace is next door?" demanded Chace, steady his voice with an effort.

"Yes, in the Brabazé mansion. The princess was to have been the social queen of Paris this year. She's a wonderful beauty, you know."

"Was to have been?"

"She married that rotten Brabazé last June," but of course you never heard of the place. You may have heard of his brother, however. His mistress shot him in Brussels!"

"Great God, man!" gasped Chase, clutching his arm in a grip of iron, clasping his hands, crying to another, amazed. "What's the answer?"

"He's dead? Murdered? How-when? Tell me about it!" cried Chase with agitation, so great that James looked at him in wonder.

"Good God! You must be interested?"

"Yes, sir. What would a small man like the princess and the other woman?"

"God-oh, old man. People are staring at you. Brabazé was shot three weeks ago at a hotel in Brussels. He'd been living there for two months, more or less, with that woman. In fact, he was married to the Princess Gonvara.

"The gossip is that she wouldn't live with him. She'd found out what sort of a dog he was. They didn't have a honeymoon, and they didn't attempt a heraldic tour. Somehow they kept the scandal out of the papers because of the name of the place, of course, of a week, just before the 14th. The police had asked the woman to leave town. He followed. Dope head, they say. The bride went into seclusion at once. She's never to be seen again where. The woman shot him through the heart, and then she took a line dose of poison. It was a tipping news story."

"This was a month ago?" demanded Chase, trying to fix something in his mind. "Then it was after the yacht left Marseilles with orders to pick me up at Ararat."

"What are you talking about? Sure it was, if the yacht left Marseilles six weeks ago. What's that got to do with it?"

"Nothing. Don't mind me, Arch. I'm a fool."

"There was talk of a divorce almost before the wedding bells ceased ringing. The grand duke got his eyes opened when it was too late. He repented of the marriage. The princess was obliged to live in Paris for a certain length of time before applying to the law courts to make her take my head she's happy these days!"

Chase was silent for a long time. He was quite cool and composed when at last he turned to his friend.

"Arch, do me a great favor. Look out for me, man. I'll take a cab to the hotel and see that they get setted. I'll join you this evening. Don't ask questions, but put me down here. I'll take another cab. There's no time. I'll explain soon. I'm going somewhere, and I'm in a hurry."

HIGH PRIZED CARS
IN A LOW PRICED CAR**Plain Facts about the Ford Automobile**

A triumph in engineering and construction, the Ford now has exclusive and ideal design. The appearance of an automobile is made by body and hood together, not by body alone. The lines of the two must blend artistically. This is accomplished by the Ford. Ford bodies are of the latest pattern, giving incorporated beauty to the car complete. The happy result in appearance, combined with other exclusive Ford features, compels the favorable attention of every thoughtful purchaser. Such combination of economy is unique in the Ford engineering features, which include resistance, light weight, simple and efficient cooling and freedom from tire trouble. Inexpensive with the average automobile is unreasonably large. The tires, costly themselves do not last. They break down and blow out more easily than this is because the wear and weight put upon them is too much. Reasonable tire service can be secured only

ShortCourseSchool**DEPARTMENT OF AGRICULTURE**

The Hon. Duncan Marshall, Minister of Agriculture, announced this morning that the Department of Agriculture had completed arrangements for the holding of three short course schools in the Province during the months of February and March. These schools will be similar to the ones held last winter, and will be held at Macleod, Innisfail and Vermilion, and will be of two weeks' duration each. Besides these schools, a school for one week will be held at Strathmore in conjunction with Prof. Elliott, who is in charge of the C. P. R. experimental farms. Prof. Elliott has assisted the Department at institute work, and will, during the coming winter, give the Department assistance at this work, and in return for this the Agricultural Department is sending its entire outfit of stock used at the short course schools, as well as the lecturers in charge of the work, for one week to Strathmore. Two car loads of pure bred stock will be carried to these different schools and instruction will be given in breed types, feeding, breeding and care and management of live stock. The first week of each of the schools will be the live stock week, and the second week the following subjects will be taken up:

1. Grain, Soil and Weeds—"The Growing, Judging and Grading of Grain," "Soil Cultivation," "Noxious Weeds," "Grasses and Fodder Crops," Samples of grains, grasses and weeds will be used for demonstration.

2. Poultry—"The Housing," "Feeding," "Hatching" and "Rearing." Incubators and brooders will be in operation. Birds will be fattened, killed, dressed and packed for market.

3. Dairying—Instruction in dairying will cover the subject from the production of milk to the marketing of the finished product, with farm dairy machinery in operation.

At each course there will be judging competitions held, and prizes offered for proficiency.

The schools will be held as follows:

Beginning at Strathmore, February 12th to 11th, inclusive; Macleod, February 13th to 25th; Vermilion, February 12th to March 4th; Innisfail, February 21st to March 11th. Prizes will be awarded at each of the schools in the judging competition, and then a grand challenge trophy will be offered by the Provincial Department of Agriculture at the Innisfail school for competition to teams from the four schools. Those teams to consist of four men standing the highest in the local competitions. The teams from Strathmore, Macleod and Vermilion will have their expenses paid to Innisfail by the boards of trade in the towns.

These short course schools are entirely free and open to anyone who cares to attend. The boards of trade and agricultural organizations in the different towns in which they are held are making arrangements so that the board of students attending the schools may be obtained at a reasonable rate. The Department has secured the services of some excellent men in connection with these schools. Among these is Prof. W. L. Carlyle, Dean of Agriculture of the Idaho State University, Moscow, Idaho, who will take the judging classes in heavy horses and veal cattle. Arrangements are not yet completed for all the teachers at schools, but the services of some other excellent men as well as men in connection with the Agricultural Department, will be given to the classes in these several schools. The Dominion Department of Agriculture is also assisting by giving the services of Messrs. Hunter and the Experimental Farmers of the Experimental Farm, Lethbridge, and W. C. McMillian of the seed department, Calgary. These schools will be in charge of H. A. Craig, Superintendent of Fairs and Institutes.

Is This Your Boy

Who tender and must face the hard, cold world without preparation or protection?

No. You know and I think of such a thing. And yet, would you neglect your health as you do if you wanted to think of your family and how they would get along without you?

You are strong, full of vigor and energy. You go home tired and worn out, feel less and irritate lack the old-time health and good cheer which brought you sunshine into your home at your arrival.

You don't sleep well, the brain is not so clear and active. Little time now for rest and recreation. Short breaths nervous system exhausted. You know this, but do not want to consult a doctor, and scarcely know who to do.

Dr. Chase's Nerve Food. It cannot fail to do you good, for it is made up of the elements of which your rapid development is most in need. The nerve fluid in it gives the body sends more energy and vigor to every organ of the human body.

You can tell yourself a great deal by noting your increase in weight. You will sleep better, appetite and digestion will improve and you will feel more energetic and vigorous which can only exist side by side with good health and steady nerves.

You can put a stop to the wasting process by taking a few drams of this medicine. You may feel like doing this every day, but it will bring you a day nearer to nervous collapse.

This treatment is not a stimulant to wake up the dead, but a balm to soothe the weary, by filling the system with rich, red blood. It will not cure in a day but its benefits are natural and lasting. With persistence on your part it will work wonders.

Dr. A. W. Chase's Nerve Food, 50 cents a box, 6 boxes for \$2.50, at all dealers. Dr. Chase's Nerve Food. Toronto. Portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, on every box.

NEARLY DIED OF STONE IN THE BLADDER

GIN PILLS SAVED HIM.

513 James St., Hamilton, Ont. Five years ago, I was taken ill with a severe attack of stone and inflammation of The Bladder—intense pains in back and loins, and difficulty in urinating, and the attacks, which became more and more frequent, were unbearable agony. I became so weak that I could not walk across the floor. My wife read in the papers about GIN PILLS and sent me a box. I took them first, I found that GIN PILLS were doing me good. The pain was relieved in a week and the attacks were less frequent.

In two weeks the Stone in the Bladder came away. When I recall how I suffered and how now I am healthy and able to work again, especially well enough to where I speak of what GIN PILLS have done for me." John Herman, 48 years old, Hamilton, Ont.

WORKING MEN MAYORS.

Aristrocratic Britain Has Had Several of Them.

Nowadays it is always possible for the humblest boy in the town to become the head of the nation, the brains and power." Recent years have abundantly proved this by showing us several noted working men who have risen to the mayoral chair of their native or adopted town.

Indeed, two very well-known mayors of a year or two past were men who had originally risen from working-class ranks which they served later as chief magistrates. These were Mr. Will Crooks, late M.P., who was elected mayor of Poplar, one of London's one of the most respected boroughs, whom that large town placed in its mayoral chair a year or two before he had won himself a similar honor with Will Crooks.

Many people will still remember that Cardiff raised a working man to the highest office in the Welsh city and, indeed, on him, and not on who it chose him to be Lord Mayor during the year when the late King Edward had promised to visit the city. Major was chosen to be mayor with the way the mayors received him and carried out his duties on behalf of Cardiff that he knighted "Sir" Will Crooks on the spot.

This year on the banks of King-on-Thames did justice to one of its hardest workers on the local council by electing Councillor Clarke to the mayoral chair. Mr. Clarke had been a policeman in the royal anchor burgh, and in consequence many of the elite of the place were averse to his being chosen to be their chief magistrate.

Two years ago in the same town, Mr. Charles Tawell, who had been one-time rival to him, admitted that there was no other man so fit to fill the mayoralty as the former policeman, and that Mr. Clarke had been appointed to the mayoralty of Lambeth on the well-deserved reward of fair service.

Breasy Blackpool did equal honor to itself and All Brodele when it made another gentleman its mayor in 1904, for the well-known admiral and formerly been a policeman in Morecambe.

Mr. Timothy Owen was still a small man on the line when his fellow townsmen at Abberconwy, Glamorganshire, raised him to the mayoral chair. One man in the place was more highly esteemed than the other, the small man, and in proof of this no fewer than 300 railwaymen, headed by Mr. K. J. Cheney for the last fifteen years and believe him perfectly honorable in all business transactions and accordingly able to carry out any additional work made for him.

"Eat and Be Merry!"

Stop starving yourself—stop suffering the pangs of indigestion—stop worrying about what you eat and dare not eat.

Eat hearty meals of wholesome food, take

NA-DRU-CO DYSPEPSIA TABLETS

and you'll feel like a new person. Sour stomach—heartburn—occasional indigestion—chronic dyspepsia—all yield quickly to NA-DRU-CO Dyspepsia Tablets. The properly digested food restores your strength; your stomach regains its tone, and soon requires no further aid.

So's a box. If your druggist has not stocked them yet send 50c, and we will mail them. 37

**HIRAM CARPENTER'S
WONDERFUL CURE
OF SKIN DISEASE**

After 20 Years of Intense Suffering,

"I have been afflicted for twenty years
with an obstinate skin disease, called by some
M. D.'s, psoriasis, and others leprosy. I had
no hope of ever getting rid of it until I
could do, with the help of the most skillful
doctors, it showed signs of improvement.
I then covered my entire
person in the form of dry scales. For
the last three years I have had
no trouble internally till the time.

Every morning there would be nearly a dozen
beds, some of them half as large as the ex-
treme range of the human body. I would
wash myself, commence cracking open,
I tried everything, smears, lotions, etc., but
June I started West. In hopes I could reach
so low I thought I should have to go to the
bottom of the ocean. I did, and I did, and I did.

One day I met a man who had a short
time to live—he earnestly prayed to die
before he died.

"Johnny—Oh, yes, mother, I did. I did.
I told her I wished death had

me, little boy."

Miss Prime—He won't bite, ma'am.

Miss Prime—But he is showing his teeth.

Little Boy (with pride)—Certainly.

I am, ma'am, and that had as good

teeth as he has you'll show em, too.

First Question—Do you understand

the question of capital and labor?

Second Question—Well, it's this

way. If you lent me ten bob that

would be capital, and labor would be

the trouble you would have in getting

it all back again.

Mr. Dauber (sore with irritation)

He—had a sore with irritation

and pain and—

I commented by taking one

tablespoonful of Curicure, and had a bath over a

day, water about blood heat; used Curicure

and even applied it to the skin.

Result returned to my home in

in just a week.

Hardware and Lumber

Our first announcement for the New Year is that we have decided not to handle any

Horse Blankets

in the future. We will sell the stock that we now have, which is quite heavy, at a reduction of

25c on the dollar

from this day on and hope you will respond to this announcement and get a really cheap blanket

We have also taken over the agency for the

McCormick and International Harvesting Machinery

and will now be in a position to supply the public with a full line of

Gasoline Engines

from one to forty-five horse power, both stationary and traction, and would like you to call on us and see what we can do for you along these lines.

We are still handling the White Rose Gasoline and National Light Oil, both first-class products of the refining process of crude oils, as well as a full line of Lumber, Lath, Shingles, Sash, Doors and Mouldings, Building Paper, Etc.

Neapolis Notes

Why do people go to California when there is so much climate right here at home?

The oyster supper given on the 10th by the Willing Workers did not seem to have the sanction of the weather man as the thermometer dropped to 45 degrees below on that occasion with the result that most people were conspicuous by their absence, financial returns ditto. The class were pretty well lined up in good spirits and excellent appetite and a very large time was enjoyed by all present.

Rich Oldham has been having grip but is better at present.

Mrs. P. H. Lantz is recovering from her recent attack of lung trouble.

The W. C. T. U. met with Mrs. D. M. Stuart on Thursday. A pleasant time was the inevitable result.

An old fashioned round social for the benefit of our own preacher will be held at the home of Mrs. P. H.

Now all ye good people who are familiar with the usual size of a preacher's salary, and the appetite that invariably accompanies it, please rise to the occasion, but remember that hay, coal, salt and cold huckwheat cakes are bared. Better bring your own lunch as the preacher would probably object to having it served up out of his goods.

C. Graves has a fine new ten pound son. Cigars?

Dave Siebert passed through here Monday on his way east to produce a well for Mr. McCutough.

School opened Monday with Mrs. Shaw retained for another year's work, which speaks for itself as to the quality of her work.

The school election passed off very satisfactorily. R. D. Oldham being retained for another term and Mr. Len Schellenberger being elected as a new member.

Out West

Services will be held at the following places on Sunday, January 2nd, 1911. Elkton at 12 o'clock, noon; Zeta at 3:30, afternoon, and in the Baptist church, Westcott, at 7:30. Preacher, H. C. Packham; subject, "The Ideal of a Man."

THE CANADIAN NAVY**SIR CHARLES TUPPER, WOULD BUILD FAST CRUISERS**

Ex-Prime Minister Has a Project that Would Assist the Empire in Time of War, and Help to Develop Trade in Canada in the Time of Peace—He Would Ten Years Younger Help Build Fast Steamers.

Montreal—In a recent interview, Sir Charles Hibbert Tupper, who just returned from a long vacation, recited the views expressed by his father, Sir Charles Tupper, with regard to the construction of the Canadian navy.

The ex-prime minister is of the opinion that the government and parliament of Canada have made a great mistake in the manner in which they have chosen to meet the nation's needs.

Sir Charles declares that it would be ten years before he would assist the empire in the time of war, and in no small measure, to develop the trade of Canada in the time of peace. The veteran statesman said if he were ten years younger he would help to construct the most powerful steel armament of the arm's type, and thus constitute a service between Halifax and Great Britain that would leave New York and the American ports far in the rear, and that the ships used to break up these cruisers would render signal service in keeping open our grain route across the Atlantic.

MANUFACTURERS TO COME DOWN

Will Not Object to Reciprocity in Agricultural Implements Under Certain Conditions

Ottawa—The Free Press, in a recent issue, says:

"It is reasonable to believe that the proposition has been placed before the cabinet on the part of manufacturers that they will be willing to accept the plan of some or all classes of implements upon the free list, if they were given corresponding concessions in the matter of raw materials."

"Of course the whole question is dependent upon the result of the negotiations at Washington, but those who can be reasonably sure that the sentiments of the agricultural implement makers state that they will not object to reciprocity in implements provided they get equal treatment in the United States. There are many points as to which Canadian implement makers would have a chance in the States, just as there are localities in which they might make a good adventure, but there is a growing feeling that the real cause of Western complaints against duties upon implements is not so much a question of tariff of protection, but that it must be left for the railway commission to deal with."

LAUDS JOSEPH CHAMBERLAIN

Has Done More to Consolidate Overseas Dominions Than Any Other Man

London—A striking tribute to Joseph Chamberlain, the empire builder was paid by Lord Stratford at Birmingham recently when he said that the Birmingham people must be very proud to have in their midst one who has done so much to consolidate the dominions across the seas than any other man in Great Britain or the empire. Representing Canada in England, he said nothing could be more fitting, but he was glad to pay tribute to such a statesman and joined with them in the wish that Joseph Chamberlain might be granted not only to the people of Birmingham but to the empire for many years.

C. N. R. To Operate H. B. Rail

Ottawa—Further inquiries made recently tend to the belief that all difficulties will be cleared away to date his trip to the Arctic Circle. It is pointed out that it is not customary to ask the government-general to attend the coronation, but it is not denied that His Excellency will cross the Atlantic to attend the coronation ceremony. If he does go, the preparations are that his plane will be at present incomplete, will be carried out and despite the apparent difficulties, the cruiser Rainbow will be at His Excellency's disposal at the mouth of the Mackenzie river.

VALUABLE DISCOVERY

Multiplex Telephony is Practicable According to Recent Experiments

Washington—General Allen, chief signal officer of the army, has announced that as a result of recent experiments by the signal corps, multiplex telephony, which involves independent conversations may be carried on simultaneously over the same wire circuit, is now practicable.

Another discovery calculated to double the capacity of existing telephone lines, is that it is no longer necessary to have two wires, or what is known as the "return," but that a single wire with "silent earth" connections can be used for multiplex telephony. All of the necessary instruments are already available and can be purchased in the open market.

It is a remarkable fact that the superposition of alternating telephone conversations upon a single wire circuit does not interfere in the slightest degree with the insulation of present telephones or telephone sets. The station and office building will be the largest west of Winnipeg.

Mr. Webster was much interested in the wagon road being built from Edmonton to Grande Prairie. He drove over a portion of this road and found it very good, and he stated that he would take a ferry on the Athabasca river and will bridge the Baptiste and Little Smoky rivers. The Big Smoky will be crossed by a bridge at Grande Prairie.

Mr. Webster was charmed with the weather at Edison. "They get the clouds there you know," he said, "at present have no snow. We could have had snow very early in the city." It was a most beautiful sight.

Speaking of the prospective rush of people to Grande Prairie, Mr. Hobkirk, publicity agent for Alberta, said: "There are hundreds of people waiting to get through to the Grande Prairie area. They are scattered from almost every end of the western and from some of the southern states. Progressive settlers have written to ascertain the time to set out on the trek to the north. I have instructed them that after February will be best time. Many will rush to this great land, rush their quota to this great land, rush."

I know of twenty-five families in the later provinces who have definitely decided to go to the Peace River country. The government will establish stopping places along the wagon road between Edison and Grande Prairie for the convenience of settlers."

EQUAL RIGHTS TO PROTESTANTS

Ulster is 44 Per Cent. Catholic and Outside of Belfast Voted Home Rule

London—John E. Redmond deposes a long article in the London papers to an endeavor to remove the Unionists' objection to Home Rule. The objections are based on the fact that Ulster Protestants will be unrepresented.

Mr. Redmond assembled statistics showing that five-tenths of the population of Ireland, including Catholics, still executing Belfast the whole of Ulster voted for Home Rule by a majority of 129,000. Mr. Redmond argues that the result of the fact that Ulster cannot be claimed to be a Protestant province. He quotes Protestant historians like Taylor and Seckham who have shown a spirit of Unionism always has been held by Irish Catholics. He declares that if Home Rule is granted, the Protestant minority will have equal rights with the Catholics.

Earl Grey Will Visit Far North

Ottawa—Further inquiries made recently tend to the belief that all difficulties will be cleared away to date his trip to the Arctic Circle. It is pointed out that it is not customary to ask the government-general to attend the coronation, but it is not denied that His Excellency will cross the Atlantic to attend the coronation ceremony. If he does go, the preparations are that his plane will be at present incomplete, will be carried out and despite the apparent difficulties, the cruiser Rainbow will be at His Excellency's disposal at the mouth of the Mackenzie river.

Early Announcement

Ottawa—There was a further conference here between Hon. G. P. Grant, minister of the interior, and Sir Alexander Mackenzie and Sir Donald Graham in reference, it is presumed, to the Hudson Bay railway. No announcement was made, but it is understood that Mr. Graham expects to be in a position to make a definite announcement as to the government's policy shortly after the house meets.

"This would be the first time Mackenzie and Grant are willing to pay attention to the Hudson Bay railway department."

"The proposal will no doubt meet with strong opposition from the people of the West who want government operation of the Hudson Bay line."

Formed Many Unions in West

Toronto—John Fleet, organizer of the American Federation of Labor, has just completed a tour of the West after a seven months' tour in the West. Mr. Fleet reports a good demand for skilled mechanics in the West, and says the cost of wages is the highest in the West. During his tour, Mr. Fleet succeeded in founding thirty-five unions, embracing a number of trades and further aided existing unions to materially strengthen their membership.

Compensation Act for Saskatchewan

LAND RUSH TO GRANDE PRAIRIE IS PROMISED

Hundreds of People are Waiting to Get Through to the Grande Prairie Country—Wagon Road Being Built from Edison to Connect with Government Road to Grande Prairie on Peace River.

Edmonton, Alta.—W. J. Webster, immigration agent, has returned from a trip to Edison and other points west on the Grand Trunk Pacific. He reported great interest in the region where there will be, he says, as sufficient snow falls, two thousand teams hauling supplies into the mountains for three years' work.

At present, however, teams are working on the G. T. P. round house and station. The round house will accommodate twelve engines and provision will be made for four additional extensions. The station and office building will be the largest west of Winnipeg.

Mr. Webster was much interested in the wagon road being built from Edmonton to Grande Prairie. He drove over a portion of this road and found it very good, and he stated that he would take a ferry on the Athabasca river and will bridge the Baptiste and Little Smoky rivers. BIG GRANT IS NEEDED

The Commission Will Ask Parliament to Vote a Large Sum of Money

Ottawa—It is understood that the conservation commission will ask parliament this session to vote a large sum to carry on the work of conservation of forest resources of the Dominion.

It is reported that the grant, if it is made, will be approximately ten million dollars and that it should be expended in reforestation and fire protection.

A recommendation along these lines will be submitted at the forty-first convention when it meets in Quebec this month.

Silent to Ask About Our Lands

Edmonton—It is probable that when Prime Minister Sir Wilfrid Laurier visits next month he will be asked to demand the return of the provincial control of natural resources, and will endeavor to reopen negotiations with the federal government toward that end.

The oil fields in the northern portion of the province have been developed during 1910 and will be thrown open for unrestricted production shortly.

Labour Exchanges Needed

London—The "Daily Standard," discussing the Canadian immigration report, observes that Canada's policy is not sufficiently broad to be of service to the interests of non-English immigrants to a great extent.

The new governor, a son of Canada, Hon. Frank Wallace, was born in his father's home, four miles from Elora and spent his boyhood in Pittsford.

PLOT TO DEFRAUD GOVERNMENT

Rather Convincing Evidence Brought Out in The Enquiry at Vancouver

Vancouver matters took a new turn when David C. Low, a young Chinese agent who with Special Agent Foster, of the Canadian government, prepared the evidence which resulted in the suspension of Collector Powell and Interpreter Yip. On took the stand. He recited the facts previous to the trial of Mr. Foster.

Letters from one Gao Man, who is connected with the firm of Na Mo Hong Kong, addressed to Yip on, were produced. These letters referred to certain "private goods," which means Chinese immigrants, and stated that Ping Shan's warning valid had been received by him. The Chinese agent had been supplied with passports. Han Sing was asked to identify Na Mo Hong Kong and set the seal on shore.

The reading of these letters and their reputation by Yip on caused an argument between Dr. E. McCrossin, solicitor for the Dominion government, and Mr. S. Taylor, who is representing Yip on.

Mr. Taylor stated that his stand is that the letter referred to above is a forged document prepared by Mr. Foster, and that matters had taken such a grave form that conspiracy to defraud the government had been proved by the Lord. Dr. E. McCrossin, however, helped me, "Lord, it is nothing with these to do with either with many or with few. O Lord our God, we trust in Thee, and in Thy Name we go."

Yet in the thirty-sixth year of his reign, King David, having sinned, repented and did that which was good and right in the eyes of the Lord his God. He also dedicated an army twice as great as that of the Philistines to defend the Lord. (2 Kings 5, 21.) His prayer in chapter XIV, 16, has often helped me, "Lord, it is nothing with Thee to do with either with many or with few. O Lord our God, we trust in Thee, and in Thy Name we go."

All the Lord's dealings with His people are intended to bring them nearer to Himself, but to this day many have been led astray by what He does not do not to turn away from Him and lose all fellowship with Him. Some of my friends know something of preciousness and value in this world, and through His servant Hanani, "The eyes of the Lord run to and fro throughout the whole earth to show His servants; He looks upon them whom hearts are perfect toward Him" (chapters vi, 9). We need such a word as this so much, for the devil is always going about, trying to turn us away from God, and getting us up and into it. As a roaring lion he walketh about seeking whom he may devour (1 Cor. 15, 32; 2 Tim. 4, 1).

Even in the reign of Asa the Spirit of God spoke to him through Asaph, the son of Obed, in the words of verses 2 to 7 of his lesson, referring to the year 900 B.C., when the people had been led off following the Lord, but whenever they in their trouble sought Him, He was always found of them to turn to the aid of the just. By the Lord's gracious dealings with His people in the past, in notwithstanding all His trials, He encouraged Asaph with the word, "The righteous shall not fall, and let not your hands be weak, for your work shall be rewarded" (verse 7).

His exhortation to us still and always to stand straight and firm in the power of the Lord, and to mark the raising of the flag of federal authority.

It was proposed to utilize a new Australian port on this occasion, but when discovered the flag was the manufacture of an aged Chinese resident, who, however, was naturalized, and vigorous, and when asked if the flag was aptly named, he averred that when matters were beginning to look serious by the discovery of an old fellow European flag.

The flag was hoisted to the flagstaff, and under its ragged folds the territory entered on federation. The west Australian government is sending a company of soldiers to India to procure experienced soldiers as immigrants. Special arrangements on land will be made.

Veteran Advocate of Imperial Unity Looks Forward to the Time When Canada Will be Centre of Empire

London—Sir E. Young, veteran advocate of imperial unity, told the "Morning Post" the other day he believes that Canada will so develop to become the centre of the empire.

It is felt that the removal of the existing government to that Dominion and with it would be as content under Sir Wilfrid Laurier as under Mr. Asquith or Mr. Balfour.

THE SUNDAY SCHOOL

LESSON III.—FIRST QUARTER, FOR JAN. 15, 1911.

Text of the Lesson, II Chron. xv, 1-15.

Memory Verses, 1, 2—Golden Text, II Chron. xv, 7—Commentary Prepared by Rev. D. M. Stearns.

Although Amaziah, son of Rebekah, had been a good soldier, he was not in all the sins of his father (I Kings xv, 1-3), yet there is in II Chron. xiii a remarkable record of a great victory over the King of Jerusalem, who was twice as great as Amaziah because he relied upon the Lord God of his fathers, the Lord had him seen in it to mighty strength, and His name was made famous.

Letters from one Gao Man, who is connected with the firm of Na Mo Hong Kong, addressed to Yip on, were produced. Saints won for two reasons. First, they had a better goal keeping than us, and the rough play throughout the whole game told on the visitors, and toward the last the Saints were able to do as they pleased with the visitors.

The next game on the schedule is to be played Thursday afternoon between Didsbury and Lacombe at Didsbury and it is hoped that there will be a large turnout of supporters to see the game.

Didsbury team goes to Lacombe on Wednesday next.

The next scheduled game at Didsbury takes place on Friday, Feb. 3rd, St. Mary's (Calgary) vs. Didsbury.

Curlers Play District Matches.

Two ranks of curlers from Didsbury, Innisfail and Red Deer met at Innisfail on Friday last to play for the District trophy and the District championship. It is needless to say that there was an enthusiastic time on the ice, everything was kept on the hum, from the start to the finish, in the afternoon until late at night and the check, click, of the stones was fast and furious.

Two ranks that represented Didsbury were as follows:

G. R. Gaddes, skip; J. A. Findlay, third; E. N. Ballard, second; J. Good, first.

G. B. Sessmith, skip; H. S. Patterton, third; H. E. Ostrom, second; J. E. Stauffer, first.

Didsbury and Innisfail played off first; Gaddes vs. Wilson (Innisfail) score 8-5.

Sessmith vs. Graham (Innisfail) score 6-5 in favor of Innisfail.

Total points Didsbury 20; Innisfail 17. This gave Innisfail the lead and they played off the district trophy match with Red Deer. Innisfail won.

Sessmith vs. Ostrom (Innisfail) played off right for the district championship the game resulting 7-14 in favor of Innisfail.

Death of Mrs. J. Russell

The death of Mrs. John Russell of Westcott occurred on Thursday, January 22nd, 1920, of confinement. Decedent was a daughter of Mr. and Mrs. Austin Findlay of Hamerly, now deceased, and Alberta four years ago. Besides her husband, J. Russell, a daughter and a son at Westcott, two brothers at High River, one sister at Edmonton and two sisters in Waterloo, Ont., and another at Brandon, Manitoba, all came to mourn her loss. The funeral took place at Westcott on Saturday, Rev. E. G. Heaven of the Church of England officiating.

Allowance Money

The money set aside to run the house should be kept in a bank account separate from any other funds—then, at the end of the month you can see where every dollar has gone—and balance the account without trouble.
